PREFACE

Crawford County is located in central Georgia. It was created as the fifty-fifth county by the state legislature in 1822. The county was formed from the northwest portion of Houston County which had previously been created from Creek Indian land in 1821 using the land lottery system. Crawford County in 1824 lost a large part of it's western portion when Upson County was formed. It later received small additions from Talbot and Macon counties. Since then the boundaries have remained mostly unchanged and to-day encompass an area of 313 square miles.

The county was named for William H. Crawford, a Georgian who was serving as U. S. Secretary of the Treasury in 1822. He was a jurist and a diplomat, and very nearly President of the United States.

Knoxville, the county seat, was named for General Henry Knox of Revolutionary War fame. The courthouse that was first built there, burned in February 1830. The early marriage records somehow survived the fire. In the early years, Knoxville was the hub of business and county activity. When the railroad was built within one mile of Knoxville, a station called Roberta was established which soon drew the business trade to that location. To-day Roberta is the largest county town.

Joanna Troutman is probably the most noted native of Crawford County. A monument to her stands on the courthouse square. She designed, made, and presented a flag to a group of middle Georgia volunteers en route to Texas to help fight for its independance from Mexico in 1833. With a reverse color change her "Lone Star Flag" was later adopted as the official state flag by the State of Texas.

Although the county lies, within commuting distance of large job markets in Macon and Warner Robins, it's industry remains primarly agriculture. It leads the state in the number of peach trees and to-geather with pecans, they account for 60% of all farm income.

The county population in 1830 was 5314 and rose to 8855 by 1850. The county lay along the Macon and Montgomery Trail of the Creek Indians and as this and other trails turned into roads, emigerants poured into the county. The estate records herein show that many came from east Georgia counties and the Carolinas, but many also moved on to new counties and states to the west.

The earliest estate record begin with Guardians Bonds Book "A" 1830-1842 which also included many Administrators Bonds. The next earliest estate record in the Inventories, Appraisements, Sales and Vouchers Book "B" 1833-1837 which also includes some annual returns and one marriage. The Inventories and Appraisements Book 1836-1837 contains 59 pages on the estate of WILLIAM H. SIMMONS who held notes and accounts on more than 400 people. The Inferior Court Minutes, Ordinary Purposes for 1838-1849 and for 1850-1856 show the appointment of executors, administrators, guardians, trustees, appraisers, distributors, bondsmen, plus orphans, illegitimates, the poor, and those declared insane. Two others, Guardians Bonds Book "C" 1853-1855 & 1863-1866 and Administrators Bonds Book "C" 1853-1855 are included in this publication. These seven books covers all the available estate records prior to 1855 with exception of the Wills and the Annual Returns which we will print in forthcoming separate publications.

We wish to express our graditude to the trustees of the R. J. TAYLOR, Jr., Foundation who awarded our Society a grant to assist in the various non-labor costs of compiling this publication and the printing costs. The Foundation also absorbed the expense for printing thirty additional copies which they will distribute to various libraries within the United States.

PROJECTS: The Society undertakes special projects for preservation of genealogical and historical information, such as: microfilming old newspapers, abstracting and publishing county court records, federal census records, cemetery records, etc.

PUBLICATIONS: The Society publishes a monthly NEWSLETTER and a QUARTERLY. The QUARTERLY is published near the last day of March, June, September and December and is mailed to all members in good standing. Beginning in 1989 the four issues of the QUARTERLY will be dated as Spring, Summer, Fall and Winter to allow for any slippage by the printer. The Society exchanges quarterlies with a number of genealogical societies and mails free copies to selected libraries. QUERIES, from members only, are published in the QUARTERLY free of charge. There in no limit as to the number of queries which a member may submit. BOOK REVIEWS are published when a copy of the book has been received by the Society. After review these books are donated to the Genealogical and Historical Room, Washington Memorial Library, Macon, GA., whose holdings are one of the largest in the southeast. Members are encouraged to submit ARTICLES FOR PUBLICATION in the QUARTERLY, and extra long articles may be serialized. The QUARTERLY is not copyrighted and anyone is welcome to make proper use of the contents; however, the use of articles quoted from other published sources is prohibited without permission from the copyright holder. Appropriate credit will be appreciated. The QUARTERLY is not sold by subscription. Current and back issues may be purchased from the Society when available. The Society welcomes the opportunity to publish FAMILY PEDIGREE CHARTS for members. Mimimum coverage of four generations is required. Write for blank charts on which to prepare your pedigree.

ADVERTISING: The Society accepts classified and display ads for publishing in the QUARTERLY. Only ads of genealogical/historical interest; including supplies and services, books and periodicals, education programs and opportunities, workshop/seminar announcements, etc., will be accepted. CGGS will consider entering into reciprocal agreements with other genealogical organizations for publishing announcements pertaining to activities thereof. A display ad layout sheet, with cost for various size ads, is enclosed with each issue of the QUARTERLY.

MEETINGS: The Society holds regular monthly meetings with planned programs. In addition to the program, time permitting, a question and answer session is usually conducted for the benefit of members who have a problem with their research, or who has found a better way for accomplishing their work. Visitors and guests are always welcome to attend regular meetings of the Society. Our current membership covers many states and we invite you to join our Society.
